User Manual: Getting Started with Napkin AI

1. Sign Up & Log In:

Visit napkin.ai and sign up using Google or email. Use a desktop browser for the best experience.

2. Create a New Napkin:

Click on 'Create New Napkin' from the dashboard. You can start from scratch or paste existing content.

3. Add Descriptive Cues (Optional):

Include hints like 'Chart:', 'Flowchart:', or 'Diagram:' to help Napkin AI suggest accurate visuals.

4. Generate Visuals:

Select the text block and click the 'Generate Visual' button. Napkin AI will suggest visuals based on your input.

5. Select & Customize:

Choose a visual and use the editor to change layout, colors, fonts, connectors, and icons.

6. Export Your Work:

Use the 'Share -> Download PDF' option for the whole document, or export individual visuals as PNG, SVG, PPT, or PDF.

7. Collaborate & Share:

Share live links with collaborators, add comments, and edit together in real time.

Quick Tips:

- Use short, clear text blocks.
- Use format hints like 'Pie chart:'
- Regenerate visuals if needed.
- Customize fonts and colors.
