About the University

A sprawling campus with a vibrant population of students, faculty and state-of-the-art laboratories has made SASTRA a landmark in the educational map of India. SASTRA has reached national standing in terms of academic performance, co-curricular and extra-curricular activities. SASTRA offers various Undergraduate, Postgraduate and Doctoral programmes in Engineering, Arts, Science, Law and Management. The excellence of the academic programmes offered by the University is replicated in the ratings awarded by National Assessment and Accreditation Council (NAAC) which has reaccredited SASTRA with a maximum grade of A++ (3.76/4.00) in cycle IV, retaining the status of Category-I University.

About School of Computing

The School has highly sophisticated computing facilities and state-of-the-art laboratories for training and R&D work in various areas of Computer science & Information Technology applications. As part of R&D, the Centre named TIFAC-CORE has been established with a supercomputer, VLSI & Embedded System lab, Sun Lab, etc., The School is equipped with 1 petaflops HPC which comprises 1 head node & 30 compute nodes with NVIDIA Tesla A100 GPU cards. The Centre is set up to promote triangular linkage between Industry, Academics, and Government in the IT field. The faculty members have a good blend of industry and teaching experience.

About the Conference

The 2024 International Conference on Applications and Technologies in Information Security (ATIS 2024) is the 14th event in the series that began in 2010. Academic research in information security has led to the development of specific applications and techniques over the past two decades. ATIS 2024 focuses on techniques and applications in information security, providing a platform for presenting innovative ideas, research results, and experiences. The conference bridges theoretical and implementation communities, attracting participants from industry, academia, and government.
